

Full contoured Zirconia

Looking for a restoration with the least amount of tooth reduction?

3M ESPE innovation now brings you Full Contoured Zirconia restorations. These glazed Zirconia units have no ceramic layering and give you strength and esthetics of Zirconia with minimal tooth reduction

Benefits

- Due to their high strength, 3M full contoured restorations are suited for cases with only little inter occlusal space.
- Now you can restore a tooth with as little as 0.6 mm occlusal reduction in its preparation.
- You can offer patients with bruxism a tooth coloured and strong restoration (more than 1000 mpa) without porcelain overlay
- With 3M Full contoured restorations, you can now give your patients an adequate tooth coloured replacement of PFM or full cast metal restorations.

3M Full Contour Zirconia Restorations are available as

- Lava™ Premium Full Contour Restorations
- Lava™ Classic Full Contour Restorations
- 3M Essential Full Contour Restorations

Lava™ Premium full contour crown- Occlusal

Unique shading technology

-By the company that invented Zirconia shading

3M™ ESPE™ Lava™ Premium system is based on a unique 3M™ ESPE™ shading technology, meaning that its color is not on the surface but comes from within. This unique technology used in the Lava™ Premium Dyeing Liquids also helps to preserve translucency after shading, without compromising strength.

Benefits

- High Translucency
- High Strength
- Eighteen natural, warm and vivid tooth colors, 7 effect shades and a fluorescent effect shade are available for unlimited individualization.
- Several years of clinical experience and millions of successful cases worldwide enables a 15 year limited warranty*.
- The warranty card will contain a genuine 3M Authentication label

Indications

- Single crowns
- 8 Unit bridges with upto 4 pontics in the anterior region
- Inlay and Onlay bridges
- Primary telescopes
- Custom Zirconia abutments for a wide variety of implant systems

Lava™ Zirconia crowns & bridges are designed to look and feel like beautiful natural teeth.

Benefits

- Precision CAD/CAM system for outstanding marginal fit & superior fit relative to leading competition
- Proven high strength performance-1440 mpa 3-pt. bend strength
- 10+ Years clinical study with 100% survival rate
- Natural translucency and unmatched aesthetics
- Patented substructure system available in 8 shades
- Limited 10 Years warranty*
- The warranty card will contain a genuine 3M Authentication Label

Indications

- 8 Unit bridges with upto 4 pontics in the anterior region
- Single crowns
- Custom Zirconia abutments for a wide variety of implant systems
